BLENDED LEARNING OPTION

This program can be completed through in-class learning, or through a blend of both in-class and online learning.

APPLIED PROJECT MANAGEMENT CERTIFICATE PROGRAM

Project management is a growing field and there is an increased demand for individuals to know about, and manage, both small- and large-scale projects. The Applied Project Management Certificate (APMC) program will take students through the lifecycle of a project, providing the terminology and concepts required to participate in, and lead, projects. The courses will go through the planning, cost estimates and budgeting, communication strategies for stakeholders, and monitoring and controlling projects. The program is for individuals wanting to augment their education and gain the foundational knowledge and skills needed in project management or wanting to step into project management.

Getting Started

• To attend a class:

Use the “Register Now” feature on the PACE website to register online for a course through our instant enrolment process or go in-person to the PACE Registration Office.

• To enroll in a program:

Submit a completed Application for Admission Form to the PACE Registration Office.

Courses begin at various times throughout the year. It's never too late to get started. Check our website for the latest offerings and application forms.

Objectives

This program is for individuals interested in:

- Exploring a change in employment focus;
- Obtaining the knowledge and skills necessary for success in this dynamic and expanding profession.

Outcomes

On completion of this program, students should be able to:

- Create and execute project work plans, define project scopes and deliverables, determine project resources and staffing requirements, set project milestones, develop budget proposals, and successfully close a variety of projects;
- Gain a thorough understanding of the procurement life cycle;
- Create a project management communication plans;
- Manage changes in project scope, create comprehensive risk profiles, and identify and develop mitigation and avoidance strategies;
- Foster a dynamic team environment built on collaborative relationships.
