BLENDED LEARNING OPTION
This program can be completed through in-class learning, or through a blend of both in-class and online learning.

BUSINESS SYSTEMS ANALYST DIPLOMA PROGRAM

In all industries businesses rely on information. Quality, timeliness of data, and complete analysis can impact critical decisions. The role of a Business Systems Analyst is to bridge the gap between the business' need for that information and available solutions. The analyst builds this bridge by thoroughly analyzing the business' needs and processes and then designs and tests a solution.

NOTE: some courses in this program are delivered at the Manitoba Institute of Trades and Technology (MITT) Henlow Bay Campus.

Getting Started
- **To attend a class:**
  Use the "Register Now" feature on the PACE website to register online for a course through our instant enrolment process or go in-person to the PACE Registration Office.

- **To enroll in a program:**
  Submit a completed Application for Admission Form to the PACE Registration Office.

  Courses begin at various times throughout the year. It's never too late to get started. Check our website for the latest offerings and application forms.

Outcomes
On completion of this program, students should be able to:
- Identify and document business systems requirements; conduct business and technical studies; and design, develop and implement business solutions;
- Offer advice on information systems strategy, policy, management and service delivery;
- Conduct independent, third-party reviews to assess quality assurance practices, software products and information systems.

Tuition
$7,500 Approximate cost of program
