Professional, Applied and  
Continuing Education

## WHO IS THIS PROGRAM FOR?

The Masters Certificate in Project Management is for project managers in any industry that wish to move up to a higher level—typically, mid and senior-level project managers who will be leading more complex projects. It is also perfect for those that do not have their PMP® designation and wish to consolidate and certify their project management training for career success.

## HOW CAN THIS MASTERS CERTIFICATE HELP ME?

The Masters Certificate in Project Management is specifically designed to advance career growth opportunities in a short period of time. Through this program, you gain the knowledge, skills, and confidence to fill senior project management or leadership positions by systematically working through the project management cycle.

## HOW CAN THIS PROGRAM FIT WITH MY CAREER STRATEGY?

The course is team-taught by real-world experts from across North America. It provides students with great networking opportunities and experience-sharing to reinforce learning. The knowledge you gain can be applied immediately in a project and operational environment. Taking past and new skills to the next level, students gain exposure to practical tools, strategies, and best practices for being an effective project manager and meeting organizational challenges.

In a recent survey of our graduates, we learned that over half go on to write the PMP® exam and over 98% pass on the first try.

# ADD VALUE TO ALL YOUR PROJECTS WITH A COMPLETE SKILL SET FOR SUCCESS

The Masters Certificate in Project Management has been designed from the ground up to build excellent Project Managers – skillful, strategic leaders who can consistently guide projects to success.

This certificate is now offered in a blended online format. With 18 course days spread over 4 months in the virtual classroom, this course minimizes time spent away from work, with one weekend day per module.
